THE ISSUE

The *Northern Beaufort County Regional Plan* doesn't consider a compact growth alternative. The proposed residential densities are too low (2-4 units/gross acre) to mitigate sprawling development patterns and have a meaningful impact on encouraging walkable, mixed-use development that is transit-efficient or that will reduce the conversion of open space. The Plan's Future Land Use Map recommends commercial development for the length of the Highway 170 corridor.

THE SOLUTION

The Framework Plans provides a more fine-grained approach to land use policy recommendations. It is based on focusing growth in walkable nodes in areas that are served by infrastructure and away from areas that are environmentally sensitive.

FG 1.0 | THE FRAMEWORK PLAN

The Framework Plan is a macro-level planning tool to properly organize the Beaufort community. While it is coded to the parcel level, it is not intended to replace the zoning map. Rather, as noted in the previous pages, it is an aggregation of a series of zoning categories that combine to form neighborhoods and sectors. Once adopted, the Framework Plan can more easily be adapted to the existing zoning categories in the city's zoning or serve as a basis for a full conversion to a form-based code in the future. The matrix below is a cross referencing tool to help guide individual zoning decisions.

Framework Plan Conversion Matrix

Framework Zone	Transect Zone	Zoning Categories	Notes
O-1	T1, Civic	CP	
O-2	T1, T2	TR, RE	
GR-1	All	All	In 50-100 years this zone could be another town
G-1	T2, T3, T4	R1, R2, TBR, NC, MHP?	This would also include a number of County zoning districts
G-2	T2, T3, T4, T5	R1, R2, R3, R4, GR, TBR, NC, OC, LI, PUD	
G-3A	T2, T3, T4, T5, T6	R4, GR, GC, OC	May also include other higher density residential districts - R2, R3
G-3B	T2, T3, T4, T5, T6	R4, GC, OC, HC	May also include other higher density residential districts - R2, R3
G-4	T4, T5, T6	R4, CC	May also include other higher density residential districts - R2, R3
SD	SD	LI, MHP?	
Civic/Hospital	Civic	MED and all districts that permit civic uses	
Military	SD	MR, MP	

The Framework Plan is a land use policy map intended to provide guidance to Beaufort's leaders as they make decisions on where and how the community should grow. It provides the overall structure for orchestrating appropriate patterns of growth and environmental conservation throughout the community.

▲ COMPLETE FRAMEWORK INCORPORATING THE ENTIRE URBAN GROWTH BOUNDARY

2.3: TRANSECT-BASED AND CONVENTIONAL DISTRICTS

2.3.1 PURPOSE AND INTENT OF THE TRANSECT APPROACH

Most of the zoning districts for the City of Beaufort are ordered and classified according to the “rural-to-urban” Transect (see diagram below). The Transect is a method of classifying the natural and built environments as a continuum of conditions, ranging from natural and rural lands to urban centers. The value of the Transect is that it groups compatible buildings, public spaces, and infrastructure by scale and intensity of use, while still allowing the development of neighborhoods where residents and workers can walk to work, school, and daily errands.

For example, a public space at the edge of the city may be a large regional park with hiking trails, while a public space in the city center may be a more intimate square where markets and events take place. Similarly, a residence near the edge of the city may be on a large lot set back from the street, while a residence in the downtown area may be a condominium in a three- or four-story building.

The Transect approach is implemented in Beaufort through different levels of development intensity that range from the T1-Natural Preserve at the low end to the T5-Downtown Core and Urban Center districts at the high end. These Transect zones are also referred to as “form-based districts” because each has detailed provisions for the mix of uses, building design, density, height, street design, the design of parks and open space, parking, and other aspects that make up the city. The Transect zones that guide Beaufort’s form-based districts are as follows:

Note: This text and imagery are for descriptive and illustrative purposes only.

2.3.2 SUMMARY OF TRANSECT-BASED DISTRICTS

T1—NATURAL PRESERVE DISTRICT (T1)

The T1-Natural Preserve district is intended to preserve areas that contain sensitive habitats, active or passive open spaces and urban parks, cemeteries, and limited agricultural uses. This district typically does not contain buildings, with the exception of small civic buildings, interpretive centers, or supportive recreation facilities. There are no specific development standards listed for this district.

Note: All images are for illustrative purposes only.

T2—RURAL DISTRICT (T2)

The T2-Rural district is made up of lands in an open, cultivated, or sparsely settled state. Planning for future development within the City of Beaufort **does not** include rural areas, and inclusion of the T2-Rural district here is for illustrative purposes only. There are no development standards listed for this district.

T3-SUBURBAN DISTRICT (T3-S)

T3-Suburban district is single-family residential in character, with less development than other Transect-based districts within the city. While almost exclusively residential, civic and park functions are also complementary to the character within this district.

T3-NEIGHBORHOOD DISTRICT (T3-N)

The T3-Neighborhood district is residential in character, and includes a mixture of residential and civic uses. Residential units are an assortment of sizes and types including cottages, small houses, two- and three-family dwellings, village houses, and cottage courts. Carriage houses, located behind single family homes, and on the interior of lots, may contain studios or other small businesses.

T4-HISTORIC NEIGHBORHOOD DISTRICT (T4-HN)

The T4-Historic Neighborhood district is a primarily residential district that encompasses the entire historic district with the exception of a few north-south commercial corridors. It contains houses and residential buildings that are characterized by generous front porches, southern orientation, and historic architectural detailing. A limited number of corner retail buildings historically existed, and continue to exist, in this district.

T4-NEIGHBORHOOD (T4-N)

The T4-Neighborhood district is a mixed-use zone of urban residential units and limited commercial development. A wide range of building types exist in the T4-Neighborhood district, including, but not limited to, apartment buildings, mixed-use buildings, rowhomes, duplexes, corner stores, and both attached and detached single-family housing.

A sub-district of this is the T4-Neighborhood Artisan (T4-NA) district. It incorporates more industrial uses, as well, and is applicable in the Depot Road area where industrial uses abut residential areas.

T5-DOWNTOWN CORE DISTRICT (T5-DC)

The T5-Downtown Core district consists of higher density, mixed-use buildings that accommodate retail, rowhomes, offices, and apartments. A tight network of streets, including those in Beaufort's historic commercial downtown, allows this district to be a highly walkable area. Buildings are set very close to the street in order to define the public realm and allow for visible activity along the streetscape.

T5-URBAN CORRIDOR DISTRICT (T5-UC)

The T5-Urban Corridor district consists of higher density, mixed-use buildings that accommodate retail, rowhomes, offices, and apartments located along primary thoroughfares. A tight network of streets allows this district to be a highly walkable area. Buildings are set very close to the street in order to define the public realm and allow for visible activity along the streetscape.

2.3.3 SUMMARY OF CONVENTIONAL DISTRICTS

REGIONAL MIXED-USE (RMX)

The RMX district's intensity accommodates region- and community-serving commercial and business uses, as well as highway-oriented businesses. Development form supports a high-quality commercial character coordinated with a uniform streetscape that enables pedestrian and transit access.

LIGHT INDUSTRIAL DISTRICT (LI)

The LI district permits office, manufacturing, industrial, and warehousing uses, as well as their supporting uses. Moderate to high intensities are permitted to achieve maximum land utilization that will also accommodate small businesses and start-up or incubator businesses. It also allows for larger industrial parks where appropriate.

INSTITUTIONAL & CAMPUS DISTRICT (IC)

The IC district supports generally non-residential institutions and employment areas that are designed in a campus-like setting, such as hospitals, universities, research facilities, and offices. It is intended to ensure that these unique institutions are designed to be compatible with their surroundings and the rest of the city.

MANUFACTURED HOME PARK DISTRICT (MHP)

The MHP district provides a sound and healthy residential environment that is sufficient to meet the needs of inhabitants living in manufactured homes, to protect manufactured home parks from encroachment by incompatible uses, and to encourage the consolidation of manufactured homes into manufactured home parks.

MILITARY RESERVATION DISTRICT (MR)

The MR district is applied to existing military bases and Department of Defense lands, and provides for military facilities and all supporting activities, such as housing, offices, and services that are on base land, even though they would otherwise be considered separate uses. Military property is under jurisdiction of the federal government. Recommendations and standards for this district are not included since these lands are federally owned, and are typically not subject to city regulations.

District. Conditions may be listed in the “Additional Standards” section as appropriate. Other uses permitted in the general T4-N district may have special conditions for T4-NA; those conditions are also listed in the additional standards section as appropriate.

G. **Prohibited Uses (—):** The use is prohibited in the specified district.

3.2 TABLE OF PERMITTED USES

Land uses in transect-based and conventional districts shall be permitted in accordance with the table below. Special provisions related to uses in the AICUZ Overlay District are in Section 2.7.4. The zoning designation of water is the same as the land it is adjacent to.

AGENDA ITEM
TITLE: Approval to extend FY 2020 ATAX Grant through FY 2021
MEETING
DATE: 9/8/2020
DEPARTMENT: Finance

BACKGROUND INFORMATION:

The FY 2020 ATAX grant award process was approved by City Council on October 8, 2019. According to the Grant guidelines, the funds are required to expended by October 7, 2020. Several grantee's were unable to fulfill their ability to fulfill their obligations because of the impact from COVID 19. The four (4) non-profits impacted are as follows:

Beaufort Area Hospitality Association for a total grant award of \$4,935 toward the Oyster Fest.

Penn Center for a total grant award of \$2,500 toward Heritage Days.

Port Royal Sound Foundation for a total grant of \$2,500 toward the history timeline of Port Royal Sound.

Friends of Spanish Moss Trail for a total grant of \$1,000 toward the Downtown Connector, Phase 2

The Tourism Development Advisory Committee has requested that these funds, totaling \$10,935 be extended until September 2021 for these four grantees to give them additional time to fulfill their grant obligation. This extension would not impact their ability to apply for FY 2021 ATAX grant funds.

PLACED ON AGENDA FOR: Action

REMARKS:

Request that City Council approve the extension until September 30, 2021 for the four grantees noted, allowing them to complete their obligation under the FY 2020 grant process and request reimbursement through that extension date, provided that the funds are expended in the same manner in which the grant was awarded.

DEPARTMENT REQUEST FOR CITY COUNCIL AGENDA ITEM

TO: CITY COUNCIL **DATE:** 9/3/2020
FROM: John O'Toole, Beaufort County Economic Development Corp
AGENDA ITEM TITLE: Approval to allow changes to Magnus Corporation Purchase Agreement for land in Commerce Park
MEETING DATE: 9/8/2020
DEPARTMENT: City Managers Office

BACKGROUND INFORMATION:

The Beaufort County Economic Development Corporation would like to request a change to Section 12 of the purchase agreement between the City of Beaufort and Magnus Development Partners that was previously approved by Beaufort City Council. We would like to change the language in Section 12 relative to the lease rates from '\$6.50/sf' to 'reasonable market rates.' We would like to change the language for the following reasons:

1. To keep the language consistent between the development agreement and purchase agreement.
2. To allow Magnus the ability to include build out and improvements in the lease if that is the expectation of the tenant.
3. To allow Magnus the ability to offer shorter term leases and earn market rates.

We initially put in the RFP a maximum lease rate to ensure the developer would not be incentivized to depend on the BCEDC's funds in the first five years. Having worked with Magnus on 3 recent projects we can see how the lease rates they are offering are driven by space, tenant requirements for build out and terms. Therefore, it is our recommendation and request to bring the sales agreement back before your City Council and to amend the language in Section 12 from '\$6.50/sf' to 'reasonable market rates.'
