Beaufort crews begin hanging holiday decorations this week

Starting today at Bay Street, Beaufort's public works crews will begin hanging holiday decorations on street light poles.

During the installation, parking spaces adjacent to the street light pole will be blocked off to allow crews to use their equipment to lift and attach the decorations.

Bay Street, between Newcastle and Carteret streets, will be the first areas to be dressed for the winter holidays. Crews will expand the decorations throughout the downtown area in coming days.

Once the decorations are in place on a street light pole, the crews will relocate and open the affected parking spaces to visitors.

For more information, please call the City of Beaufort Public Works Department at 843-525-7054.
