## **Beaufort City Council to review, discuss Parking Task Force report at June 30 work session**

The Parking Task Force presented its findings to Beaufort City Council and the public at a special council meeting held June 11. The report was well received by those in attendance and by the Mayor and City Council, who thanked David Cargile, committee chair, and all the committee members for doing a very comprehensive report.

The report presented both short and long-term recommendations for staff and council to consider and implement. The presentation can be found on the City's website.

City Council has scheduled a work session for June 30 at 5:00 p.m. at City Hall in the Planning Conference Room. Council and staff will discuss the Task Force recommendations and will develop an action plan for addressing the issues raised in the report.

The public is invited to attend and comment.

Since the temporary test of two hour free parking ends as of June 30, 2015, SP+, the city's parking management company, will be making the necessary changes to the signage and meters to reflect the resumption of standard parking rules and regulations effective July 1, 2015.
