City of Beaufort
Moorings, Electrical, and Dock Assessment Services (RFP 2013-107)
Answers to Questions Received by Question Deadline (April 19, 2013)

1. Should we submit a proposal for all three scopes combined? Or must we submit each one separate? If we can perform two or three of the scopes, do we price each one separately or combined?

Answer: Anyone who is able to perform two or three scopes of work, may submit all two or three scopes in the same proposal package but must price each scope separately. If the proposer will give a discount for performing two or more scopes of work, it is at the discretion of the proposer to include a discount pricing in addition to the individual pricing of each scope of work.

2. Are there any specifications as far what mooring or ground tackle you want?

Answer: The City only has the size specifications at this point. As stated in the RFP section IV, a), i), b., "The minimum size of buoy: minimum 24" diameter buoy and minimum 240 lbs. buoyancy."
