4 STAFF COMMENTS

Staff has reviewed chapter ten and has the following comments:

10.1 City Council – no comments
10.2 Metropolitan Planning Commission – shall perform all planning functions in the areas of jurisdiction of the City of Beaufort and the Town of Port Royal, South Carolina, and the unincorporated areas of Port Royal Island and Lady’s Island, all of which have been designated as the growth area in the Northern Beaufort County Regional Plan. . . . The MPC is created so that the two municipalities and Beaufort County can act together to enhance present advantages, to overcome collective problems involving these three governmental entities in which joint resolution is advisable, and to engage in orderly planning for the wise conservation of historic and natural resources, and for the growth of business enterprises providing new or expanded job opportunities in the growth area. [10.2.1.A Powers and Duties]

South Carolina Code of Laws

SECTION 6-29-310. "Local planning commission" defined.

For purposes of this chapter, "local planning commission" means a municipal planning commission, a county planning commission, a joint city-county planning commission, or a consolidated government planning commission.

SECTION 6-29-320. Bodies authorized to create local planning commissions.

The city council of each municipality may create a municipal planning commission. The county council of each county may create a county planning commission. The governing body of a consolidated government may create a planning commission. Any combination of municipal councils and a county council or any combination of municipal councils may create a joint planning commission.

Re 10.2.1.A and 10.2.2.A, staff suggests that the planning commission no longer be a “metropolitan” commission, which has 2 members from the county, 2 members from the Town of Port Royal, and two members from the City of Beaufort. The ostensible rationale for a metropolitan commission is to address regional issues, however, addressing regional issues is the expressed purpose of the Northern Regional Plan Implementation Committee and, therefore, is not needed of the planning commission.

It is a considerable responsibility for a planning commissioner to be knowledgeable of the municipality’s zoning ordinance, comprehensive plan, and other supporting plans and documents. To expect planning commissioners to be familiar with the foundational planning documents from three separate jurisdictions is hopeful at best and unrealistic in fact.

Multi-person boards are instrumental in bringing different perspectives to the deliberation of important issues. However, it is important that these different perspectives are from individuals who have a direct interest and connection to the jurisdiction. Requiring that planning commissioners are residents or owners of property in the City of Beaufort is essential to ensuring that planning commission decisions are focused on city needs and impacts.
Re 10.2.1.D.1 (MPC additional duties): add “that are outside of public rights-of-way, designated open space, or public parks” at the end of the current Review and make recommendations to the City Council in regard to planting, tree preservation, and other aesthetic consideration for land and land structures.

Re 10.2.1.D.3 (MPC additional duties): Currently, subdivision sketch plans go to the MPC for approval. Preliminary plats and final plats are approved by staff. Being a ministerial decision, should all subdivision plans be approved by staff?

South Carolina Code of Laws
SECTION 6-29-1150. Submission of plan or plat to planning commission; record; appeal.

(A) The land development regulations adopted by the governing authority must include a specific procedure for the submission and approval or disapproval by the planning commission or designated staff.

SECTION 6-29-1110. Definitions.

(2) "Land development" means the changing of land characteristics through redevelopment, construction, subdivision into parcels, condominium complexes, apartment complexes, commercial parks, shopping centers, industrial parks, mobile home parks, and similar developments for sale, lease, or any combination of owner and rental characteristics.

Re 10.2.3.G: replace reference of Department of Planning and Development Services with Department of Community and Economic Development

10.3 Zoning Board of Appeals – correct misspelling of “circuit” in subparagraph G; replace reference of Department of Planning and Development Services with Department of Community and Economic Development and remove and the building official of the city, due to the building official being a part of the department.

10.4 Building Official – no comments

10.5 Administrator – no comments

10.6 Technical Review Committee – change staff the pre-application conference to staff the pre-design conference

10.7 Historic District Review Board – Section 10.7.1.B states The HRB shall review and take action on projects located within the Beaufort Historic District, including changes to the exterior of any structure and new construction. It is unclear if this means new construction to a historic structure or new construction in general. If it is the latter, this is in contradiction to 9.10.2, which states that it requires administrative review, not HRB review, of applications for certificates of appropriateness for new construction and building modifications to include construction of non-habitable accessory buildings in the Beaufort Preservation Neighborhood. Staff is respectfully requesting Council’s intent regarding review of new construction in historic districts.

Regarding sections 10.7.3.A, it states that one of the 5 members shall be a member of the board of directors of the Historic Beaufort Foundation, and shall be recommended by the organization. While recognizing the important role the HBF plays in protecting the historic assets and character of the city and having no objection to a board member of the HBF serving on the HRB, staff feels, however, that
mandating that a member of an advocacy group serve on a board, which has been formed to protect public interests, is less democratic and, therefore, not recommended.

**10.8 Design Review Board** – Section 10.8.1.B reads that the “powers and duties” of the DRB are to review, and approve, or deny, all applications subject to Major Development Design Review as outlined in Section 9.8.2. It is unclear whether the DRB is expected to provide technical approvals or guidance of design. If it is technical approval of development plans, as stated earlier, the governing authority [city council] can assign this responsibility to the planning commission or designated staff. It is unclear if this can be delegated to another board. If the expectation of the DRB is to provide guidance on design, does this make them an architectural review board?

SECTION 6-29-870. Board of architectural review; membership; officers; rules; meetings; records.

(A) A local government which enacts a zoning ordinance which makes specific provision for the preservation and protection of historic and architecturally valuable districts and neighborhoods or significant or natural scenic areas, or protects or provides, or both, for the unique, special, or desired character of a defined district, corridor, or development area or any combination of it, by means of restriction and conditions governing the right to erect, demolish, remove in whole or in part, or alter the exterior appearance of all buildings or structures within the areas, may provide for appointment of a board of architectural review or similar body.

If the DRB is an architectural review board, can their purview be the entire city save the historic districts? Reference section 10.8.1.A.

**Re 10.8.3.G:** Replace reference of Department of Planning and Development Services with Department of Community and Economic Development.

BACKGROUND INFORMATION:

Given the lack of affordable housing in the city, and understanding there are multiple contributing factors – government regulation being one, the Design Review Board has reviewed The Beaufort Development Code to determine if there are mandated requirements, that may extend beyond the purposes of ensuring a well-ordered, healthful, and safe developed-environment, that could be making the cost of constructing residential housing more expensive. The Board respectfully requests an evaluation of the following in the Beaufort Development Code:

- The requirement in the T4 district that the ground floor height of single-family residential structures shall be a minimum of 9 feet from finished floor to ceiling [§ 2.6.2.C.2]
- The requirement in the T4 district that the ground floor height of multi-family residential structures shall be a minimum of 10 feet from finished floor to ceiling [§ 2.6.2.C.3]
- The requirement in the T5 district that the ground floor height of residential structures shall be a minimum of 10 feet from finished floor to ceiling [§ 2.6.2.C.4]

Memorandum for City Council and the Affordable Housing Taskforce
From the Design Review Board

August 8, 2019

TO: The Mayor and City Council, and to the Chairman of the City of Beaufort Affordable Housing Task Force

SUBJECT: The Beaufort Development Code and Affordable Housing

Given that, based on the State of South Carolina’s definition of affordable housing, a household earning a median income of just under $46K should pay no more than approximately $886 for housing, which includes rent/mortgage, taxes, insurance, and HOA fees.

And given that the recent housing needs study showed that the City of Beaufort needs 358 rental units at this cost or less; and that there are no rental units in the city for less than $875/month; though 91 units are currently being planned or developed.

And given that the housing needs study shows a need in the city for 109 for-sale houses that range in price from $100K to $199K; and that there are currently four houses in Beaufort in this price range; all are Habitat houses (2 occupied and 2 under construction).

Therefore, given the lack of affordable housing in the city, and understanding there are multiple contributing factors – government regulation being one, the Board has reviewed The Beaufort Development Code to determine if there are mandated requirements, that may extend beyond the purposes of ensuring a well-ordered, healthful, and safe developed-environment, that could be making the cost of constructing residential housing more expensive. The Board respectfully requests an evaluation by the task force of the following in the Beaufort Development Code:

− The requirement in the T4 district that the ground floor height of single-family residential structures shall be a minimum of 9 feet from finished floor to ceiling [§ 2.6.2.C.2]
− The requirement in the T4 district that the ground floor height of multi-family residential structures shall be a minimum of 10 feet from finished floor to ceiling [§ 2.6.2.C.3]
− The requirement in the T5 district that the ground floor height of residential structures shall be a minimum of 10 feet from finished floor to ceiling [§ 2.6.2.C.4]

1 South Carolina Code of Laws § 6-29-1110 (1)
2 Johnson, Deborah. 2019. Housing Progress per Housing Needs Assessment 1.30.19
3 Ibid
– The prohibition of 2-3 dwelling units, rowhomes, and apartment houses in the T3-S district [§ 3.2]
– The prohibition of rowhomes and apartment houses in the T3-N and T4-HN districts [§ 3.2]
– The requirement in the T4, T5, RMX, and IC districts that apartment building lengths not exceed 160 feet [§ 4.5.7.B.4]
– The requirement in the T4 and T5 districts that finished floor heights for residential structures shall be elevated a minimum of 2 feet and 3 feet, respectively, above the average adjacent sidewalk grade. [§ 2.6.2.C and D] (Board feels this requirement is based on aesthetics but recognizes that perhaps additional language should be added regarding grading to ensure proper drainage of stormwater and protection from flood waters.)

The DRB is willing to discuss these issues at the convenience of the task force.
